There was a fire at the residence of Dr. F. L. Keith at Rivermines on Wednesday morning. Quite a large

Direct From Factory To You

The people of this county have been fooled long enough into buying stenciled pianos and paying standard prices, and since I have secured the agencies of these great Piano Manufacturers I consider that I have used good judgment and am offering the public a chance of deciding between the stenciled or cheaper grade of instruments at a great big price or straight-forward first-class instrument at a much lower price. That is my sole reason for not buying goods in St. Louis—as there are no pianos manufactured there and all that come from there are handled through the jobber or the middle-man, hence the cause of high prices and the stenciled pianos. I earnestly and honestly invite competition of both St. Francois county and St. Louis dealers. You may ask "How can you do it?" This I have previously explained, and now I ask you to inquire of the people who have already purchased and see if they are not satisfied with the "Gillam Way"—DIRECT FROM FACTORY TO HOME.
